6. PROJECT IDEAS

The youth council spend a bit of time coming up with ideas that will make the youth council successful next year. Mohini had the idea of creating a calendar for youth in the area. They could subscribe to it, and people could send in events to us (through an Aurora Youth Council specific email) and the council can choose which events and opportunities they find engaging. Creating a council email would be helpful in engaging the public and growing outreach.

Another idea was creating an e-flyer/comment section on the youth council website in case students at school have concerns or comments and want to speak out.

The Aurora Industry turns recycling into cardboard. Mohini suggested working with them or beginning an initiative at school's to begin the process of recycling in schools. This is a future youth council event.

REMINDER: Push schools to keep promoting the youth council because spots need to be filled
