

City of Aurora
Aurora Transportation Center Regional Facility Enhancement Project
 Construction Spring of 2018

Project Description:
 -Modify existing ATC parking lot to improve traffic flow for safe, accessible, and user-friendly transit station.
 -Relocate existing Pace bus staging area.
 -Construct 750' pedestrian bridge over the Fox River.
 -Expand existing parking lot on the west side of the Fox River.
 -Relocate existing traffic signal and modifying existing entrances.
 -Install median, sidewalk, and streetlights.
 -Modify existing intersection at Spring St and Broadway Ave.

City of Aurora
Aurora Transportation
Center Regional
Enhancement Project
Construction Starting
Spring 2018

PROJECT INFORMATION

Improvements at the Aurora Transportation Center (ATC) will improve safety and access, alleviate congestions, connect existing underutilized parking lots, and connect surrounding neighborhoods, transit-oriented developments and existing Regional Fox River Trail.

The project limits extend along Broadway Ave. from Spring St. to the north ATC Entrance and will include the renovations to the current ATC parking lot, relocation of the existing Pace bus point, intersection improvements, and construction of pedestrian bridge.

The project funding is supported by Federal funding from Chicago Metropolitan Agency for Planning (CMAP) the Congestion Mitigation and Air Quality Improvement Grant Program (CMAQ) with local funding provided by the City of Aurora and Kane County Forest Preserve District. In-kind support is provided from Fox Valley Park District, Pace, IDOT, Metra, and BNSF.

Construction is weather dependent, but the majority of work is expected to be completed by the end of 2019.

Commuters should expect slightly longer commutes. Daily and monthly parking fees within the parking lots are still required. Commuters are reminded to pay special attention to traffic control and message boards that will be updated throughout the project. Surrounding business are all open during construction.

Thank you for your patience and cooperation. Please contact the City Public Works Department/Engineering Division at 630/256-3200 for questions. Addition information and construction updates are available on the City website under Construction/Aurora Transportation Center. <https://www.aurora-il.org/1928/Aurora-Transportation-Center-ATC>.
