NOTICE

STAGE 2 CONSTRUCTION TO BEGIN THE WEEK OF JUNE 11 AT AURORA TRANSPORATION CENTER PARKING LOT

Construction stage change will take place at the Aurora Transportation Center Parking Lot, beginning, the week of **May 28, 2018**, weather permitting. Commuters are urged to plan for slightly longer commutes, use caution around the work zones and be on alert for workers and equipment. Commuters are reminded to pay special attention to traffic controls, detour signs, and message board that will be updated throughout the project.

Staging 2 plan and designated parking exhibit will be posted at the ATC building and at Pay Stations. Stage 2 construction involves the construction of the new Pace Bus staging area and associated utility work. This will required the relocation of the parking stalls west of the RR tracks, ADA spaces, and motorcycle parking area. Parking areas north of the ATC building (drop-off, and taxi area) will not be available for commuters.

Taxi parking will be allowed to park along the north south drive aisle (middle drive aisle). Motorcycle parking can park at the ends of the parking isles. ADA parking spaces will be temporary relocated to the **East Platform Parking Lot**. Commuters should also use the **East Platform Parking Lot** for drop off and pick up.

Access to the ATC building and platform will be maintained throughout construction. All surrounding businesses will be open during construction.

Commuter should note the location of the daily fee and permit parking area. Permit parking areas are available for daily fee users after 8 am. Temporary daily permit parking along Lincoln Avenue is available for commuters.

OVERALL PROJECT INFORMATION

The project limits extend along Broadway Ave. from Spring St. to the north ATC Entrance and will include the renovations to the ATC parking lot, relocation of the existing Pace bus point, intersection and sidewalk improvement, expansion of existing parking lot and construction of pedestrian bridge. This multi-phase construction is weather dependent, but the majority of work are expected to be completed by the end of 2019.

Thank you for your patience and cooperation. Please contact the City Public Works Department/Engineering Division at 630/256-3200 for questions. Addition information and construction updates are available on the City website under Construction/Aurora Transportation Center (ATC).
