Construction Stage 2

Contractor continues stage 2 work. Stage 2 work is anticipated to be completed by end of July 2018, weather permitting. Stage 2 construction involves the construction of the new Pace Bus staging area, installation of storm sewers, installation of electrical conduits and parking lot lighting, construction of sidewalk and curb and gutter. In addition, contractor continues to prep area for causeway construction and fence off area for staging and material storage. Parking lot X is complete and open to the general public.

Commuters should use the East Platform Parking Lot for ADA parking and for Drop off and Pick up.

Commuters are reminded to pay special attention to permit & daily parking location signs, traffic controls/detour signs, and should avoid parking in the temporary drive aisle.

Access to the ATC building and platform will be maintained throughout construction. All surrounding businesses will be open during construction.

Commuter should note the location of the daily fee and permit parking area. Permit parking areas are available for daily fee users after 8 am. Temporary daily permit parking along Lincoln Avenue is available for commuters.

Please contact the City Engineering Division at 630/256-3200, if you have any questions.
