PURPOSE

This document shall serve as policy for the City of Aurora in standardizing certain plan and plat documents and the certificate and easement language thereon for each of the following types of submittals.

* Plat of Annexation
* Preliminary Plan
* Preliminary Plat
* Final Plan
* Final Plat
* Plat of Dedication
* Plat of Vacation
* Plat of Survey
* Plat of Easement

INTENT

- To specify the format and content of each plat document for consistency and thoroughness.
- To assure that all approved submittals have certificates and easements that conforms to City Policies, Ordinances and Statutes.
- To standardize and streamline the review of said certificates and easements.
- To assist developers and others in preparing the above submittals.

METHODOLOGY

1. Existing approved submittals were evaluated.
2. The City ordinance and statutory requirements were researched.
3. The following criteria were established:
   Certificate: A written statement by which a fact is formally or officially certified or attested. In relation to the above, the following standard content was established.
   - Who - the person certifying the fact
   - What - the fact being certified
   - Why - for what purpose
   - When - date of certification

   Easement: A right or privilege one person or entity has upon another's property.

   In relation to the above, the following standard content was established.
   - What - type and extent of easement being granted
   - Who - grantee and grantor of the easement
   - Where - location of the easement
   - Why - purpose of the easement
4. The above criteria were applied to all required certificates and easements and the standardized language contained in this document was developed.

5. The proposed standardized language was reviewed with all concerned parties prior to usage and adoption.

**IMPLEMENTATION**

This document has been divided into two parts. Part one indicates each of the nine types of submittals, and includes the definition, content, and format, along with a listing of the required certificates and easements for each submittal.

Part Two is the Appendix which provides the language for the certificates and easements listed in Part One. These may be reproduced and applied directly onto the Mylar. This standardization will expedite both the Mylar preparation and staff review.

In the event that a document requires additional or revised language for any of the standardized certificates and easements, the word "Special" should precede the title. For example, if the City Easement was varied from the standard, it should be entitled "Special City Easement."
