

Historic Preservation Grant Program Guidelines

Last Revised: 6/20/2019

I. PROGRAM OVERVIEW & OBJECTIVES

The primary objective of the City of Aurora's Preservation Commission is the conservation and revitalization of the City's historic neighborhoods. Key to this effort is the preservation of the City's unique heritage as exemplified through historic and architecturally significant residential structures. The City of Aurora has set aside funding in order to help property owners achieve these objectives.

This is a reimbursement program. The minimum amount of each grant is \$5,000 and the maximum is \$20,000. All grants at or under \$10,000 requires no cash match. All grants over \$10,000 require a dollar for dollar amount for every dollar over \$10,000. Grants will provide financial assistance towards paying a contractor OR for the reimbursement of building materials if the property owner performs the rehabilitation work themselves. Labor cannot be used as a match.

The amount awarded will be approved by the City Council with Staff recommendation based on multiple cost estimates submitted as part of the application process and the ranking of the projects by the Preservation Commission.
