Activate the City of Aurora
The **SCOPE** of permitted Aurora events during Phase 4:

- **Safety & Health**
- **Capacity Limits**
- **Official Observers**
- **Primary Goal**
- **Evolution & Expedition**
Safety & Health

• Every event must abide by the Restore Illinois Phase 4 Guidelines
  • General Guidelines
  • Event Specific Guidelines
• Every event must have a COVID-19 Mitigation Plan that outlines how guidelines will be met
Capacity Limits

- Capacity limits as outlined in the Phase 4 guidelines must be followed
- Consider online registration for the entire event or for specific registration for time periods at the event
Official Observers

• Every event must have designated ‘observers’ who have the responsibility of monitoring attendees to ensure safety measures (i.e. face coverings, social distancing, etc.) and capacity limits
Primary Goal

• Events should specify a primary goal and all plans revolve around that goal

• The goal should be measurable, actionable and/or tangible

• At this stage, the goal shouldn’t be just to gather
Evolution & Expedition

• If the event has taken place in the past, how has it evolved to accommodate Phase 4 Guidelines?

• How can the goal of the event be accomplished in a fair but expeditious manner?
  • ‘In and out’ format?
  • Time restrictions?
The **SCOPE** of permitted Aurora events during Phase 4:

“I haven’t been able to get out to see a parade in almost 20 years. This is such a blessing to have one come right in front of our home. And to top it off, they even gave us popsicles.”
